

# SPANISH FOR STAFF MODULE 2

Take the next step to expand your knowledge while learning additional everyday Spanish to use at work and around town. Join us for 1-hour fun bite-size learning for 4 quick weeks. We will cover vocabulary related to UNT specifically; such as phrases to use for providing directions, telling time, weather and more. Learners will engage in hands-on activities that will offer opportunities to practice material learned in class. Native speakers will provide insight into cultural aspects and proper usage of the Spanish language.
