SPANISH FOR STAFF

A CRUZAR UNT

Module 2

In this four hour module, we cover vocabulary related to UNT specifically; phrases to use for giving directions (and understanding directions), telling time and talking about weather. Our format provides the learners with activities to use their new knowledge and provides more opportunities for speaking. Our native speakers give insight into cultural aspects and usage of the Spanish language.

Modules in this series are stand-alone and do not have to be taken in order!
